Smooth Sailing: Studio DADO Named Sole Interior Architectural Firm for the 3rd Ship in the Regent Explorer Class

Amidst a challenging year for the cruising industry, DADO continues its partnership with Regent with optimism and high design

Coral Gables, FL, September 22, 2020 – Award-winning, Miami-based boutique hospitality design firm Studio DADO is pleased to announce Regent Seven Seas Cruises has named Studio DADO the sole interior architect for the line's newest vessel. The announcement pays homage to Studio DADO as an industry fixture, providing innovative design to the most discerning cruising clients.

Boasting suite-only accommodation for 750 guests, the vessel is poised to provide guests with an exclusive experience on the water. With a delivery date of 2023, the luxurious design and amenities will be revealed prior to the anticipated 2021 voyage ticket release date. Joining the *Seven Seas Explorer* and *Seven Seas Splendor*, the third ship will fully reflect the refined style and quality Studio DADO is known for in the industry.

“We had the distinct privilege of creating exquisite experiences for Regent Seven Seas guests in the design of the Observation Lounge and Asian Restaurant in *Splendor* as well as the Pacific Rim Restaurant and Canyon Ranch Spa in *Explorer*,” says Studio DADO Founding Partner Javier Calle. “Our vision for the third vessel is an elevated continuation of the quality and bespoke voyaging lifestyle synonymous with the Regent brand.”

The announcement follows a standout year for Studio DADO. Named by Interior Design Magazine as “The Fastest Growing Firm,” Studio DADO was also recognized on the magazine’s 100 Rising Giants 2020 list for the third year. This recognition on a global platform—based on the prestigious magazine’s annual survey that ranks the largest hospitality design firms by design fees for a 12-month period—cements Studio DADO as the vanguard of hospitality design within the cruise ship industry.

About Studio DADO

Studio DADO is an award-winning, Miami-based boutique hospitality design studio with over 60 years of cumulative design experience; delivering striking, clever design solutions and thinking outside the box to remain at the forefront of industry innovation. By synthesizing functionality and elegance, DADO breathes vibrance and utility into every space its designers take on. Both passionate and purposeful, DADO designers have transformed some of the most impressive spaces onboard ships for Norwegian Cruise Line, Regent Seven Seas Cruises, Princess Cruises, Carnival Cruise Line and Royal Caribbean. Since its inception in 2016, memorable aesthetics, appreciation of culture, and a firm understanding of both client and patron needs have established Studio DADO as a world-class hospitality design studio. To learn more about current projects, follow Studio DADO on Instagram @studiodado or visit their website at www.studiodado.com.
